Survey Instructions and Consent

Canadian Campus Wellbeing Survey

SURVEY INSTRUCTIONS

You are invited to complete the Canadian Campus Wellbeing Survey for post-secondary students.

This survey asks about different aspects of your wellbeing and health behaviours and will take approximately 15-20 minutes to complete.

The survey is voluntary and your responses are confidential. You may choose whether you would like to participate and skip any questions that you prefer not to answer or stop at any time.

Your answers are valuable and will help to inform policies and practices that support student health and wellbeing at post-secondary institutions.

CONSENT TO COLLECT DATA

By completing this survey you are giving your informed consent to the collection of the information in the Canadian Campus Wellbeing Survey. Your data will be anonymously stored in a data registry (H19-01907). The data registry is solely under the custodianship of the CCWS analysts and may only be accessed through case-level datasets prepared by CCWS analysts for approved researchers and third-parties for research purposes.

Data stored as part of the research registry will be encrypted and password-protected and stored on a computer in a secure UBC location. The CCWS is administered via the UBC Survey Tool, a cloud-based service provisioned by Qualtrics. It complies with the BC Freedom of Information and Protection of Privacy Act (FIPPA) as the data are kept secure and are stored and backed up on Canadian servers. Information collected using the Survey Tool is kept secure using measures including data encryption.

If you have any concerns or complaints about your rights as a research participant and/or your experiences while participating in this study, contact the Research Participant Complaint Line in the UBC Office of Research Ethics at 604-822-8598 or if long distance e-mail RSIL@ors.ubc.ca or call toll free 1-877-822-8598.
